

*The Wine & Country  
Club*

R O N D A

# Deserve it

From our soil to your soul

The Wine & Country Club is  
a unique wine-growing project  
created by Bodegas La Melonera.

Located in the heart of the  
Serranía de Ronda, in a unique  
and fascinating natural setting.

Located in a privileged setting, the 28 Haciendas are in the heart of one of the best preserved areas of the Mediterranean dehesa, a unique landscape home to centennial holm oaks, alongside the rich cultural heritage of its nearby town, Ronda.

The inspiration of great artists and poets, Ronda offers a rich culinary tradition as well as a wide range of cultural and leisure services.

Each of the estates, ranging in area from 12,5 to 18,5 acres, will have an Hacienda. The Hacienda will be carefully placed in harmony with the landscape, to be perfectly integrated with the natural ecosystem amidst the holm oaks and the vineyards.

The most distinctive and special element the project offers lies in that each Hacienda has its own private vineyard, where each owner can make their own wine according to their preferences. This makes The Wine & Country Club a unique concept in southern Europe.

Designed by the prestigious architect firm of Torras & Sierra, the Haciendas enjoy a fluid balance between the Mediterranean lifestyle and the state of the art.

Filled with light, comfortable and exquisite taste, they incorporate the most advanced technology in energy efficiency and comply with all the environmental and ecological protocols of the area.

Large windows, climbing plants, exterior porches, pool..., extraordinary spots where you can admire the landscape and the vineyards throughout the changing seasons.

Two styles of house to choose from, with possibilities of tailoring them to the most demanding preferences and tastes.

The owners of the Haciendas will enjoy an exceptional way of life, with a wide range of services and amenities with the highest level of refinement.

The Wine & Country Club will provide all the necessary services such as a concierge service, hospitality and exclusive leisure programmes.

As a distinctive feature based on our passion for history and local farming tradition, we are developing an ambitious programme for the recovery of native grape varieties, thanks to in-depth research.

The Wine & Country Club is located in an area of centenary holm oak forests and pasture land, meticulously cared for to ensure that the setting and natural surroundings are an essential trademark and characteristic of the project. Hundred-year-old holm oaks, vast gall-oaks and other plant species of the Mediterranean woodland make up a unique ecosystem that is preserved and kept strong and healthy thanks to The Wine & Country Club's commitment to the environment.
